252.225-7980 Contractor Personnel Performing in the United States Africa Command Area of Responsibility. (DEVIATION 2016-00006)

Use this clause, in lieu of the clause at DFARS 252.225-7040, Contractor Personnel Supporting U.S. Armed Forces Deployed Outside the United States, in all solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, that will require contractor personnel to perform in the United States Africa Command (USAFRICOM) area of responsibility.

CONTRACTOR PERSONNEL PERFORMING IN THE UNITED STATES AFRICA COMMAND AREA OF RESPONSIBILITY (DEVIATION 2016-00006) (FEB 2016)

Definitions. As used in this clause-

"Combatant Commander" means the Commander of the United States Africa Command (USAFRICOM).

"Contractors authorized to accompany the Force," or "CAAF," means contractor personnel, including all tiers of subcontractor personnel, who are authorized to accompany U.S. Armed Forces in applicable operations and have been afforded CAAF status through a letter of authorization. CAAF generally include all U.S. citizen and third-country national employees not normally residing within the operational area whose area of performance is in the direct vicinity of U.S. Armed Forces and who routinely are collocated with the U.S. Armed Forces (especially in non-permissive environments). Personnel collocated with U.S. Armed Forces in applicable operations shall be afforded CAAF status through a letter of authorization. In some cases, Combatant Commander or subordinate joint force commanders may designate mission essential host nation or local national contractor employees (e.g., interpreters) as CAAF. CAAF includes contractors previously identified as contractors deploying with the U.S. Armed Forces. CAAF status does not apply to contractor personnel in support of applicable operations within the boundaries and territories of the United States.

"Designated reception site" means the designated place for the reception, staging, integration, and onward movement of contractors deploying to the USAFRICOM area of responsibility. The designated reception site includes assigned joint reception centers and other Service or private reception sites.

"Law of war" means that part of international law that regulates the conduct of armed hostilities. The law of war encompasses the international law related to the conduct of hostilities that is binding on the United States or its individual citizens, including treaties and international agreements to which the United States is a party, and applicable customary international law.

"Non-CAAF" means personnel in applicable operations who are not designated as CAAF, such as local national employees and non-local national employees who are permanent residents in the operational area or third-country nationals not routinely residing with U.S. Armed Forces (and third-country national expatriates who are permanent residents in the operational area) who perform support functions away from the close proximity of, and do not reside with, the U.S. Armed Forces. Non-CAAF status does not apply to contractor personnel in support of applicable operations within the boundaries and territories of the United States.

"Subordinate joint force commander" means a sub-unified commander or joint task force commander.

"U.S. Africa Command (USAFRICOM) area of responsibility," as used in this clause, means-

The entire continent of Africa, excluding Egypt;

The Atlantic Ocean east and south of the line from Antarctica at 024°W, north to 4°N/024°W, west to 30°W, then north to 21°N/030°W, then east to the African continent; and

the African coast at 01°40'S.

General.

This clause applies to all contractor personnel when performing in the USAFRICOM area of responsibility.

Government-furnished support to non-CAAF is typically limited to force protection, emergency medical care, and basic human needs (e.g., bottled water, latrine facilities, security, and food when necessary) when performing their jobs in the direct vicinity of U.S. Armed Forces.

Certain requirements in paragraphs (c)(3), (e)(1), and (f) must be specified in the statement of work to be applied to non-CAAF personnel.

Contract performance in the USAFRICOM area of responsibility may require work in dangerous or austere conditions. Except as otherwise provided in the contract, the Contractor accepts the risks associated with required contract performance in such operations.

When authorized in accordance with paragraph (j) of this clause to carry arms for personal protection, contractor personnel are only authorized to use force for individual self-defense.
